

### Pickleball Paddle

## EDGE GUARD - Sturdy Woven Material

- Protect the edge of your paddle from court scrapes.
- Longer wear protection with woven material. Made with a "V" cut (sawtooth) on tape edges. The "V" cut minimizes tape wrinkling over curved edges when applied.
- The top side of the woven material has a printed distinct pattern design. The bottom side has a layer of sticky polyurethane which firmly adheres to the paddle and stays on.
- Package will completely cover 2 paddles

## Tennis & Pickleball CADDY

Holds 36 tennis balls  
Holds 24+ Pickleballs

### Picks up Tennis Balls & Pickleballs

- Made of durable, recyclable polypropylene - never rusts or peels paint.
- Assembly is a snap. Sides snap together and are secured with screws. Assembly instructions are printed on the package.
- Handles lock in place in either position. With handles in up position, Ballport picks up balls - in down position, you take out balls.
- Bottom rods roll around the ball as it is picked up and are rolled into Ballport instead of being forced in as with other ball pick ups.
- Two sets of bottom rods are included...the thicker rods are for tennis ball pick up and thinner are for pickleballs.
- So unique - multiple patents were granted.
